

HAVILAND HOLLOW FARM

A world-class polo and equestrian center just sixty miles from Manhattan.

HAVILAND HOLLOW FARM, the leading polo and equestrian farm in Putnam and Westchester Counties, features two tournament polo fields, two half-mile sand exercise tracks, an indoor polo arena and a stick and ball field. In addition, Haviland Hollow Farm boasts impressive equestrian facilities including first class stabling and paddocks, indoor and outdoor arenas as well as many cross country trails.

Founded by Sam Ramirez, Jr. who is a 2-goal polo player, the Farm provides the best services and amenities for polo players and equestrians in the Northeast. "I've brought polo and equestrian together, which are great complements. We have high level equestrian trainers located on site who run an incredibly impressive program for equestrians of all ages and abilities," said Ramirez. "As a father of three, it was imperative to have a family-friendly environment and as a result, we offer jumping lessons, trail rides and polo matches for all levels. Haviland Hollow Farm offers a well rounded equestrian experience and I am extremely proud of the facility."

On September 19th, Ramirez will host a charity polo match and family day for the Catholic Big Sisters and Big Brothers, a 100 year old organization which serves more than 1,000 non-Catholic and Catholic families and youth with mentoring, counseling and skills training.

Haviland Hollow Farm offers polo for all levels, with the majority at the 8-12 goal levels. The outdoor polo season runs until October 1st and matches are held three times a week for members and local teams. In the winter, polo is played in the indoor polo arena. In addition, for players or members, the facility offers full-service locker rooms as well as professional massage services on staff. Settled amidst the hills of Patterson, New York, Haviland Hollow Farm spreads out over 250 acres. Surrounding the property is an additional 1,000 acres of protected land further elevating the privacy and allure of the farm.
